The luxury that keeps you ahead

Transform your walls with Nova Interior's decorative wall panel. With its realistic woodgrain texture and deep, rich color, this panel is the perfect way to add warmth and sophistication to any room.

Made from high-quality PVC, this panel is durable and easy to install, making it a great option for both residential and commercial spaces. Plus, its fire-resistant and moisture-resistant properties make it a safe and practical choice.

Panel covers a large area with minimal seams for a seamless, professional look. Use it to create an accent wall, cover unsightly surfaces, or add interest to your space.

With its sleek, modern design and natural wood look plus LED strip design, Nova Interior's decorative wall panel is sure to impress.

We take care of the details

NOVA INTERIOR STUDIO LIMITED

178WP-BW

178WP-BW

Fire Resistant Rating

FRR Group 3 rating. Typically include ordinary timber or similar products (no flashover in two minutes). These materials meet the flashover criteria of the performance requirement of Clause. C3.4 (a) for all other areas.

Seamless Finish

Equally spaced battens and grooves give the illusion of a striped effect in this elegant profile. Panels exude European sophistication in their simplicity, conducive to a neutral yet impactful wall.

Fast & Easy Install

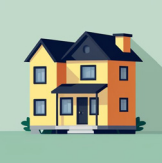

Apply panels quickly and easily with our fixing brackets, onto prepared plasterboard, timber, steel, brick or masonry wall surfaces.

APPLICATIONS

Retail shopfitting
Ceiling, wall

Homes
Ceiling, wall, screen

Auditoriums
